## Grow Your RMR with Honeywell's Next-Generation Communications Solution

Honeywell's Total Connect Remote Services utilizes our GSM solutions to actually pave the way for you to increase your RMR and, in turn, increase the value of your business.

Whether your customers are at home, across the street or across the country, Total Connect lets them utilize the Internet, mobile devices, cameras and more to stay connected to their homes and businesses. It provides them with exciting options for connectivity, control and notification while providing a great opportunity for you by answering the challenge of VoIP and cell phone-only homes or businesses. It's time to connect to opportunity!
