

Protect what you value most...

...the security of your
retail business.

Honeywell

Protect what you value most...

You can work a lifetime building your business. Make sure you spend enough time choosing the right security system to watch over it. According to statistics, businesses without alarm systems are more than four times as likely to be broken into than those that do, and retail establishments are especially vulnerable. With shoplifting and employee theft costing American businesses in excess of \$50 billion a year, loss prevention is more important than ever. To maintain profitability, retailers are becoming more strategic in their approaches to reducing asset shrinkage and improving their operational productivity.

Sophisticated, Simple Solutions

Honeywell systems combine the most advanced technology with simple employee operation, providing solutions that help safeguard your business against the threat of crime, fire and other hazards. There is no need to install multiple systems—you can have intrusion, fire, access control and CCTV in one flexible, upgradeable system.

- Safeguard your inventory, property and employees with intrusion, fire and smoke detection equipment, panic buttons and other notification devices
- Control an individual's access to valuable assets and inventory based on job function, time or location
- Round-the-clock central station monitoring—24 hours a day, 7 days a week
- Monitoring via radio or over the Internet
- Integration with building automation systems that control heating, lighting and other appliances
