

Optiflex

The picture perfect  
security solution.

**Honeywell**

# Optiflex...a whole new way to look at security.

Introducing **Optiflex**, a state-of-the-art video controller that provides you with the protection you need and the peace of mind you deserve. It lets you view cameras around your home on a TV screen from the comfort of your bedroom, living room or any remote location over the Internet.

- Check up on your children to make sure they have arrived home safely from school, via the Optiflex Video Capture feature.

For the ultimate peace of mind, look no further than Optiflex—the picture-perfect security solution.

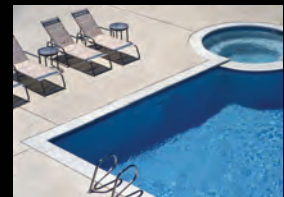

Optiflex makes it easy to:

- Monitor your baby in the nursery

- Screen visitors at your entranceway

- Keep your eye on vulnerable areas (i.e. a swimming pool)

- View activity occurring around the exterior or interior of your home (i.e. check on workers or service people, keep an eye on children playing outside)

# The protection you need. The peace of mind you deserve.

## Here's Looking at You...

Televisions can be integrated to provide an added level of security and peace of mind—broadcasting pictures to any existing television in your home. Wondering who's ringing the doorbell while you're getting dressed? Want to keep an eye on the kids while you're preparing breakfast? Checking on the baby is as easy as changing the channel! Should you hear a noise in the middle of the night, you can view any location inside or outside your home on a TV screen from the comfort and safety of your bedroom.

## Protected...and Connected.

Whether you're at the office, traveling for business or away on vacation, you can stay connected to your property and the people you love. Optiflex lets you watch over your family and home from any remote location by viewing cameras on any desktop or laptop computer with the most highly secure Internet connection available!

## Do or Do Not Disturb?

Combining Optiflex with entertainment can add a whole new level of convenience to your life. Instantly view the upstairs nursery, when the baby starts crying while you're watching a movie downstairs. Is an unexpected visitor appearing on your doorstep during a championship game? With a click of the remote, a picture can pop up onscreen to alert you to activities in and around your home, letting you choose what events warrant interruption.

## Going Digital

Should you require digital video storage capability, Optiflex can be combined with a digital video recorder, letting you take advantage of the Video Capture feature (i.e. functioning as a nanny cam, guarding against vandalism, etc.).

# Optiflex

## Enhanced Protection

### Looking in on Loved Ones

When it comes to watching over senior loved ones, place your trust in Optiflex. It lets you keep an eye on family members—giving them the extra protection they need while giving you peace of mind.

For those who need constant attention, Optiflex can be integrated with other components for an even higher level of security. Sophisticated tracking systems “sense” movement, alerting the caregiver when the family member gets out of bed, is in a hallway or if they leave the premises. And convenient panic pendants can be used to summon help in the event of a medical crisis, burglary or fire with the press of a single button.

### One-Touch Security Solution

For the ultimate peace of mind, Optiflex can be combined with the one-touch convenience of Honeywell's Symphony Touchscreen Interface—letting you view cameras right at the full-color display. It also provides you with easy fingertip control of your security system, lights and appliances and lets you access valuable Internet information\*—including stock quotes, news and e-mail—by following the menu-driven prompts on the touchscreen.

\* Additional services required. Internet content subject to change without notice.
