

Honeywell's Structured Solutions

SOLUTIONS FOR
A SMARTER HOME

FutureProof[®]
Your Home

Honeywell

Technology, Comfort and Peace of Mind

As electronic lifestyles become more common, it's more important than ever to make sure your home can meet all your technological needs today, regardless of tomorrow's changing technology. Honeywell structured wiring integrates the most advanced home wiring and networking technologies into simple, affordable, upgradable solutions that entertain, protect and inform you. One multi-function panel integrates security, the Internet, cable and satellite television, telephone, video, audio, HVAC and lighting. With the right components, your dream home is ready for today's world and tomorrow's advancements.

Honeywell's Structured Solutions are the industry's way to make any home—from apartments, condos and entry-level houses to custom residences—more enjoyable and convenient. You can choose packages that match your needs and budgets, and have access to the most advanced security, communications, entertainment and home control features at your fingertips. Since options vary according to individual builders, speak to your authorized professional about available packages.

Enhancing Your Life

Given the stresses of everyday life and the increasing speed at which our lives unfold, it seems we are in pursuit of security, stability and comfortable surroundings.

Honeywell's structured wiring helps you make the most of your home, letting you enjoy lifestyle enhancement and endless possibilities. Security. Luxury. Convenience. Its intelligent design takes home control and security to new levels, making your life easier than you've ever dreamed possible.

Convenience

Imagine how convenient it would be to leave your house in the morning and entrust Honeywell to...

- Arm your security system
- Close the blinds and open the garage door
- Adjust the thermostat
- Turn off predetermined lights or appliances
- Water the lawn or fill up the pool
- Run the clothes dryer
- Page you when your children get home from school

Comfort

After a long day, you can relax, knowing that by doing something as simple as dialing your cell phone, you can arrive home and find...

- The lights turned on
- The heat or air conditioner adjusted
- The stereo playing your CD of choice or favorite radio station
- A fresh pot of coffee brewing
- The oven preheated to warm dinner
- The shower turned on or the hot tub filled
- The TV tuned to your favorite channel

Peace of Mind

Honeywell can make sure you're protected...and connected. Should an emergency arise, your home can "call you", the police, an ambulance, your central station or anyone else you specify. You can also create an on and off schedule with lights and televisions to simulate a "lived-in" look when you're away, or integrate cameras for an added level of protection. Checking on the baby is as easy as changing the channel!

A Smart Investment

Honeywell may not only add significant resale value to your home, it can also be incorporated into the cost of your mortgage—meaning any initial out-of-pocket expense may be minimal. What's more, Honeywell can save you money by taking advantage of time-of-use utility rates and by conserving energy through the control of lights, thermostats and appliances.
