

Honeywell's SuperPro Series

Offering the highest level of expansion and customization, the SuperPro Series distribution panel from Honeywell provides distribution of Telephone, data and video (TV, Cable TV and Satellite TV) signals throughout the home. The SuperPro panel allows you to control which telephone lines (parents line, kids line, dedicated line for fax or computer) go to which room and control the rooms that receive TV, Cable TV or Satellite TV signals. Should you

decide to make a change, like moving your home office from one room to another, the SuperPro Series allows you to quickly and easily reroute the signals to the new location for immediate availability. The SuperPro Series allows you to add additional features like High-Speed Internet Access, Computer Networking, Internet Firewall Router, Whole House Audio, Security, Satellite TV Distribution and even Home Automation.
