

# 7845GSM Key Features

**Honeywell**

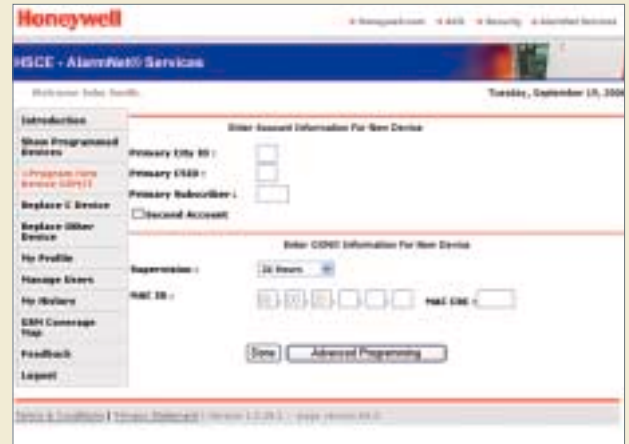

- Universal Control Panel Compatibility – Connect to virtually any control panel via 6 input zones
- Full contact ID with ECP mode or ADEMCO High-Speed Reporting in all other modes
- Everything is included in one tamper protected housing – Power supply and 24-hour back-up battery
- Features our exclusive Dual-Path Technology which utilizes GPRS for alarm reporting and data transmission, and SMS as back-up of alarm reporting should GPRS become unavailable
- Upload/Download to select VISTA controls
- Simple transition from AMPS to GSM; connects to standard ECP bus
- Simple registration of radio with 7720 programming tool, AlarmNet Direct website or toll-free AlarmNet support

## AlarmNet Direct

Web-based Programmer <https://services.alarmnet.com/alarmnetdirect>

### Easy Set-up of New and Replacement Devices

- Radio is “pre-activated” with Cingular and only needs to be registered with AlarmNet
- On-line web tool
  - Program new GSM or Internet device
  - Replace C device with GSM – super easy data transfer of account information
  - Simple mode for most installations (e.g., ECP connection and standard supervision)
  - Advanced mode for additional options (e.g., zone connection)

## AlarmNet Infrastructure

2.5 million signals processed daily!

20 years of experience providing radio service to the security industry at over 500,000 locations

- State-of-the-art network data center with primary and backup facilities
- Built-in redundancy of:
  - hardware
  - network
  - software
  - power
- Multi-technology delivery infrastructure
  - Internet
  - Radio network
  - 800plus service
- Support
  - 24/7 Honeywell infrastructure
  - 24/7 dealer technical support, 8 a.m – 8 p.m. EST, plus after hours on-call
  - AlarmNet Direct web services
