Safe. Secure. Convenient.

Your Honeywell Home Technology Checklist

Getting ready to move into your new home is an exciting time. But it can also be confusing with all of the little details you must consider. At Honeywell, we're interested in providing solutions to make your life easier. That's why we've created this convenient checklist to help you prepare for your meeting with your technology consultant.

Think about all the rooms in your new home. Where do you want phone lines, Internet connections, cable or satellite TV hook-ups and home entertainment speakers? Consider the features that will make your home convenient and connected in a way that suits your family's lifestyle.

	Telephone	Internet	TV	Speakers

Think of the possibilities!

Would you like to arm and disarm your security system with a wireless remote device? A security keypad is usually placed near your front entry, would you like security keypads in additional locations? Do you want to view activities in your home from a computer while you are at work or away from home? The possibilities are endless!

Based on your selections, your technology consultant will work with you to develop the perfect solution to meet your family's needs, with all of the options you desire.
