*** IMPORTANT NOTICE *** AMPS Carrier Shutdown Dates Update

Dear Valued Customer,

Across North America, the cellular industry is transitioning their traditional AMPS (analogue) networks to digital networks. As part of Honeywell's commitment to notify you of developments, listed below are new updated AMPS Network shutdown dates from the "B-side" carriers. AlarmNet-C radios must be replaced before the AMPS shutdown dates or service will be terminated. If you haven't done so already, you should notify your customers of this upcoming event.

To help you manage and transition your customer base from AMPS radios (Honeywell radio part numbers 7835C series and 7845C series) to Honeywell's GSM series radios, AlarmNet Direct has added new information to the "**View Accounts**" page, which can be viewed at:

<https://services.alarmnet.com/AlarmNetDirect>

The additional information includes:

- The name of the AMPS Cellular Provider for each radio displayed
- The anticipated Termination Date for each AMPS Cellular provider for each radio displayed (**AMPS Network Shutdown Dates as provided to us by the respective carrier are subject to change**)
- All data can be sorted and is downloadable to an excel spreadsheet for your use (AlarmNet Central Stations Only)

Having this valuable information is designed to help you manage your AMPS radio base that needs to be converted before the cellular provider terminates their service.

Carrier	*AMPS Shutdown Date
Aliant - New Brunswick	November 1, 2008
Aliant – Newfoundland	November 1, 2008
Aliant - Nova Scotia	November 1, 2008
Aliant - Prince Edward Island	November 1, 2008
Bell Mobility	November 1, 2008
MTS Mobility	July 1, 2008
Sasktel Mobility	December 31, 2008

*** AMPS Network Shutdown Dates as provided to us by the respective carrier are subject to change.**

Honeywell offers a digital GSM solution available at ADI-Burtek branches across Canada, call 1-877-234-7378 or 1-800-287-8359 for the branch nearest you. For more information on the Honeywell GSM solutions and rebate procedures for replacing Honeywell AlarmNet-C or other manufacturers' AMPS radios visit www.alarmnet.com.

Thank you for your continued support of Honeywell Product and Services.

Sincerely,

Chris Welling
Vice President, Sales – Canada
