your warehouse/
manufacturing plant.**

Honeywell

Protect what you value most...

According to statistics, businesses without alarm systems are more than four times as likely to be broken into than those that do. With shoplifting and employee theft costing American businesses in excess of \$50 billion a year, loss prevention is more important than ever. Honeywell understands your unique requirements, and are equipped to meet the security challenges that exist in large warehouse and industrial environments. We can provide you with the best solutions to reduce shrinkage and protect your property, inventory and employees.

Sophisticated, Simple Solutions

Honeywell systems combine the most advanced technology with simple employee operation, providing solutions that help safeguard your business against the threat of crime, fire and other hazards. There is no need to install multiple systems—you can have intrusion, fire, access control and CCTV in one flexible, upgradeable system.

- Safeguard equipment, hazardous materials, private records, locker rooms, restrooms and kitchen facilities, inventory and employees with intrusion, fire and smoke detection equipment, panic buttons and other notification devices
- Control an individual's access to valuable assets and inventory based on job function, time or location
- Round-the-clock central station monitoring—24 hours a day, 7 days a week
- Monitoring via radio or over the Internet
- Integration with building automation systems that control heating, lighting and other appliances
