Honeywell’s WIN-PAK 4.8 software solution provides a cost-effective way to integrate and manage access control, video surveillance, and intrusion detection through a single interface.

WIN-PAK 4.8 provides an intuitive browser-based interface allowing users to perform common access control actions from virtually anywhere.

WIN-PAK 4.8 can be easily scaled from a single site up to a multi-region, enterprise-level solution with multiple Accounts and Subaccounts, all without placing restrictions on the number of users or sites being managed.

WIN-PAK 4.8 supports third party integrations such as HID’s Mobile Access®, BioConnect® Suprema® and Morpho biometrics, point-of-sale systems, visitor management, and HR applications. Using the included WIN-PAK API, your software developers can create custom integrations to meet your integration needs.

FEATURES & BENEFITS

- Eliminates disparate systems and interfaces
- Integrated access, video, intrusion, and fire* systems through one interface
- Direct management of biometrics using HON-FIN4000 controller/reader
- Provision OmniAssure Touch and HID mobile credentials through WIN-PAK

- Increases situational awareness, eliminates costly false alarms
- Disarm intrusion system through any valid card swipe at an access control reader
- Arm intrusion system through a valid triple-swipe at an access control reader
- Coordinate intrusion, access, or fire* events with video actions to maximize awareness

Scales as your business grows

- Unrestricted number of cardholders and system users
- Unrestricted number of sites and access points
- Accommodates up to 40 recorders and 2,560 cameras.

Minimizes onboarding and training costs

- Intuitive web interface for access management, with embedded Help tool

Minimizes server deployment costs

- Supports VMWare 6.5 to help leverage existing IT infrastructure and server assets

Minimizes maintenance and system supervisory costs

- Customizable and automated system reporting functions with email delivery
- Perform common daily access control tasks from anywhere through the web interface
- Included API for custom integrations to third-party systems

WIN-PAK 4.8 provides an intuitive browser-based interface allowing users to perform common access control actions from virtually anywhere.

WIN-PAK 4.8 can be easily scaled from a single site up to a multi-region, enterprise-level solution with multiple Accounts and Subaccounts, all without placing restrictions on the number of users or sites being managed.
