With our new modular V² and access control training system simulator, you can simulate, emulate and create the types of networks your customers require—without leaving your office! This on-site Vindicator training solution lets you establish your own hours for training your staff. Plus, it gives you the ability to set up security and SCIF scenario labs on your own network before the system is deployed at a customer’s site.
Vindicator® Training System Simulator

With more than 30 years of experience, Honeywell understands the nuances of securing critical facilities, and now we’re sharing that knowledge with you. Our new training panel lets you train and test our V5 products according to your own schedule.

Benefits:
- Available 24 hours a day
- Train on dedicated system
- Fully configurable IDS, VCC, ACS, SMART PAC and SAW
- Simulate customer scenarios on your network before you deploy

Training Panel Includes:
1. Two (2) OLS180 Power Supplies
2. One (1) AX-ALPD8 Power Distribution Panel
3. One (1) V5 IDS – TDEA Security Appliance
4. One (1) V5 UHS – 1401 Security Appliance
5. One (1) Transponder UHS-6842
6. One (1) Gateway USH-8400
7. Two (2) Wiegand Interface Cards MR-50
8. One (1) Proximity Reader w/o Keypad
9. One (1) Proximity Reader with Keypad

System Simulator also included: 19" LCD monitor, server and all associated software
