

Honeywell Product Discontinuation – PW6000 Series Access Control Boards

In order to focus on providing the most innovative and latest technology products to our customers, it is sometimes necessary to discontinue products so focus can be dedicated to developing new, improved offerings.

This notice is to advise you that Honeywell will discontinue sales of PW6000 Series Access Modules (Mercury Series 2) on June 30, 2021, or until stock depletion, whichever comes first. Orders will be processed in chronological order. Technical support for these products will continue for a period of one year after June 30, 2021. After June 30, 2022, Honeywell will no longer debug, repair, maintain, test, or provide any kind of service or support for these products.

PW6000 Series Access Control boards can be replaced with the new PW7000 Series Access Modules. Contact your Honeywell Sales Representative for more information about migration options and requirements. Thank you for your business and continued support.
