Honeywell’s MAXPRO® NVR Hybrid SE is an open, flexible and scalable Hybrid (IP and analog) video surveillance system. MAXPRO NVR Hybrid SE utilises Honeywell’s HD cameras to offer a powerful high definition IP recording and security monitoring system for small to medium sized installations. It also supports analog cameras, enabling transition by keeping existing analog investment while transitioning to IP. MAXPRO NVR Hybrid SE is an open platform and supports broad third party device integrations with support for PSIA and ONVIF (including Profile S devices) standards, real time streaming protocol (RTSP) standard and native device integrations including 360° camera support.

MAXPRO NVR Hybrid SE provides easy to use desktop clients, web client and mobile apps— MAXPRO Mobile. The Web Client is supported from any standard Mac or PC browser and requires no additional install, provides the value of reduced setup, maintenance and improved compatibility. The interface is simple and intuitive with all the functionality and features that users need for daily surveillance operations, such as live view and playback of recorded video.

MAXPRO NVR Hybrid SE comes pre-installed with all required software and is also pre-licensed for 32 channels. This, along with an easy 3-Click* wizard to live video for auto configuration, makes installing an IP system quick and efficient without requiring any IT expertise. Simple and logical configuration pages make setup a breeze, even for the novice installer.

The MAXPRO NVR Hybrid SE user interface is based on Honeywell’s flagship MAXPRO VMS user interface which offers a feature rich user experience and is common across the MAXPRO NVR family. Utilisation of this familiar interface allows for the “learn one, know them all” concept that allows for familiarity across a broad range of Honeywell products.

MAXPRO NVR Hybrid SE supports simultaneous recording, search, and system management for 32 channels - any combination of either IP cameras (including high definition formats) or up to 16 analog cameras. Multiple MAXPRO Hybrid NVRs and NVRs can be deployed for system expansion using a distributed architecture and integrated with the MAXPRO Viewer multi-site software or MAXPRO VMS enterprise video management system.

MAXPRO NVR Hybrid SE utilises powerful processor and memory technology supporting multiple simultaneous operations such as video recording and video viewing or alarm monitoring on the unit itself without the need for an additional workstation. It also supports remote monitoring. End users can view live video while simultaneously performing searches.

MAXPRO NVR Hybrid SE offers advanced features. Honeywell’s patented Video Surround feature allows for tracking subjects of interest as they move between areas covered by adjacent cameras by simply double-clicking on the panel where the subject is currently visible. Features such as the powerful calendar, preview search options and film strip view allow for rapidly searching video for scenes of interest and then a quick export method transfers video to an authenticated video clip playable through Windows Media player. *With default settings and in a local area network.

Market Opportunities

The continual growth of IP networks and the demand for high definition video have led to the need for convergence of analog security systems and IP systems for many companies across the globe. This has resulted in a strong demand for a Hybrid (IP and analog) end-to-end security system deployment. MAXPRO NVR Hybrid SE provides an open, flexible and scalable system with operational power to address the needs of a wide variety of applications including education, commercial, retail, healthcare and many other applications. When the need is for an easy to install, simple to use, and feature rich hybrid network video recorder, the solution is MAXPRO NVR Hybrid SE.
MAXPRO® NVR Hybrid SE

FEATURES

Software
- MAXPRO NVR Hybrid SE allows local or remote operations including live and recorded video monitoring, configuration and system management in a single desktop client interface
- Support for Web Client on Windows PC (Internet Explorer, Chrome and Firefox browsers) and Mac (Safari browser). Supports live, playback/search of recorded video for up to 1080p resolution on all cameras, taking snapshots and viewing presets for PTZ cameras
- Support for mobile monitoring clients on iOS and Android with MAXPRO Mobile apps
- Broad device integrations: Honeywell cameras and encoders, third party devices with support for standards – PSIA and ONVIF (including Profile S devices), RTSP standard and native device integration including 360° camera support
- Feature-rich, user-friendly Windows based interface to view HD and analog video and configure system settings
- Easy 3-click wizard to set up the system with auto-configuration and auto-discovery of IP cameras, recording and monitoring configuration – without any IP video expertise
- Multi-zoom views on HD video. Example: Zoom in on a cash register in one view of the HD camera while at the same time monitoring the cash operator in the zoom out view of the HD camera
- Ability to investigate events and alarms by simultaneously viewing alarm videos at various stages. For every alarm, users can view the video captured during pre-alarm, on-alarm, and post-alarm, and also view live video from the camera which triggered the alarm.
- Enriched video viewing experience through the intuitive video rendering engine that optimises CPU utilization by altering the video frame rate
- Honeywell’s patented Video Surround feature simplifies the process of tracking subjects through a set of surrounding cameras
- Create, save and name salvos under My Salvos or Shared Salvos
- IP and analog PTZ control and digital zoom on fixed cameras. 360° immersive viewing experience providing heightened situational awareness and increased video surveillance coverage
- Fast search by date/time, time line, time jump, bookmarks, calendar, preview, film strip view and events. Increase productivity with more efficient search/investigation: Get to the relevant video in few clicks without having to review hours of recordings
- Event history and operator log reporting with export in .pdf, Crystal Reports, Excel or Word
- Capture and export clips and still images in simple .wmv and .bmp formats. Clips signed with digital signature for authentication
- Supports multiple client connection to NVR Hybrid Server
- Separate event video and general recorded video retention times
- Email notification on camera, system and operator events
- Role-based operator privileges supporting Windows and local users
- Flexible Motion detection (VMD) options with Server (Smart VMD) or Camera based motion events support. Reduced false alarms with object based motion detection analytics with Smart VMD
- Advanced security features with encryption support for communication between desktop client to NVR and secure https login for Web Client
- Keyboard control with UltraKey Plus and UltraKey Lite over Ethernet
- Local and multi-language support
- Multi-site support with MAXPRO Viewer
- Integration with MAXPRO VMS
- Integration with WIN-PAK® and Pro-Watch® Access Control Systems

Hardware
- Record and monitor up to 32 channels with combination of 16 analog with 480 fps @ CIF NTSC (400 fps @ CIF PAL) or 120 fps @ 4CIF NTSC (100 fps @ CIF PAL) and 16 IP with 320 fps @ 1080p HD OR all 32 IP with 960 fps @ 720p HD or 640 fps @ 1080p HD per MAXPRO NVR Hybrid SE. Network bandwidth/throughput supported per NVR Hybrid with Incoming: 120 Mbps, Outgoing: 120 Mbps providing a Total: 240 Mbps
- Supports One-Way Audio (for specific IP cameras) with live and playback on desktop clients for up to 32 IP channels
- Analog cameras support with 16 looping inputs, 16 IOs and 1 analog PTZ control port on the unit
- Includes HDMI, DVI-I/VGA ports for single monitor support for local client and spot monitor support for analog cameras
- MAXPRO NVR Hybrid SE supports displaying 16 cameras at one time, greater numbers of cameras can be displayed by adding additional client workstations
- 4 removable bays with 1 operating system & storage hard drive and 3 storage only hard drives (optional 1 TB, 2 TB or 3 TB drives). Internal storage capacity from 1 TB to 12 TB
- Includes dual 1 GB Network ports optimized to separate record and viewing data to ensure 100% recording and smooth playback even with multiple client connections
- 4U rack mount form factor with locking front bezel. Rack ears included for use with four post racking systems

**Supported Honeywell IP cameras and encoders**

Supports Performance Series IP, EQUIP® Series, IP PTZ cameras including high definition. Refer to www.honeywellscurity.com/hota

**Audio Support**

1-way audio for specific IP camera models. Refer to www.honeywellscurity.com/hota

**Supported third party IP cameras and encoders**

Refer to the Honeywell Open Technology Alliance for a comprehensive list of compatible products to which this device is integrated. www.honeywellscurity.com/hota

**Analog PTZ Protocols Support**

MAXPRO, VCL, Pelco P, Pelco D, GE/Kalatel

**Maximum number of desktop client connections**

18 remote per unit from 9 remote workstations +1 local on NVR Hybrid server

**Salvo layouts**

Desktop Client - Full: 2x2, 1x5, 3x3, 2x8, x12, 4x4.
Web Client - 2x2, 1x1, 1x2, 1x3

**Picture controls per camera**

Sharpness, blur, brightness, contrast, hue, saturation, maintain aspect ratio, stretched, original size and picture mirror

**OSD**

Concealed text option

**Playback controls per camera**

FWD/REV Play x(1, 2, 4, 8, 16) Slow FWD/REV Play x (1/2, 1/4, 1/8)

**Search types**

Time/date timeline, time jump FWD/REV, bookmarks, calendar preview, film strip and event search

**Recording schedule**

Constant and event based with H/M/D and holiday and exception days

**Recording methods per camera**

Constant, event-based and user activated

**Live settings per camera**

Compression format, resolution and frame rate

**Record settings per camera**

Same as live or reduced frame rate

**Clip format**

WMV with digital certificate for authentication playable with Windows media player

**Video clip authentication**

Digital signature, verification tool provided

**Motion detection location**

Camera based for supported models or Server based (Smart VMD) for all analog and IP models (except 360 fisheye/panomorph views)

**Event recording**

Pre- and post-duration setting

**Operator reporting**

Per user, configurator, session and viewer

**Event report**

Per camera or recorder events

**Operators**

1024

**Recording Monitoring Performance**

- 16 analog with 480 fps @ CIF NTSC (400 fps @ CIF PAL) or 120 fps @ 4CIF NTSC (100 fps @ 4CIF PAL) and 16 IP with 320 fps @ 1080p HD; OR all 32 IP with 960 fps @ 720p HD or 640 fps @ 1080p HD. 1-way audio for up to 32 IP channels. Network bandwidth/throughput - Incoming: 120 Mbps, Outgoing: 120 Mbps; Total: 240 Mbps

**Max Video Streams Support**

Web Client: Total Streams Limit - 32 (live + playback). Note: Live streams consumed are per camera being viewed live and duplicate live views of the same camera in multiple or same web client instance are allowed without consuming additional streams. Playback streams consumed are per playback stream being viewed and each playback stream being viewed consumes 1 additional stream.

Desktop Client: 160 streams, Playback/Video retrieval sessions - 32, Sync playback - 9 streams.

**MAXPRO NVR Hybrid SE Hardware**

**OPERATIONAL**

| Processor | Intel® Core i7-3770 3.4 GHz |
| Memory | 8 GB |
| Power supply | Single 465 W |
| OS Partition | 100 GB partition in storage drive |
| Storage capacities | 1 TB, 2 TB or 3 TB |
| Storage hard drive options | 4 days - 1 operating system & storage drive, 3 field-upgradable, 1, 2 or 3 SATA hard drives |
| Optical | 22X DVD-RW |
| Network | Two 1 GB Ethernet included (10/100/1000 NIC Onboard + 2nd USB NIC adapter included) |

**Chassis with locking bezel**

4U 4 bay

**REAR PANEL CONNECTIONS**

- Video Input: 16 looping, BNC 1 Vp-p @ 75 Ohms
- Video Output: MAIN-OUT (DVI-I cw VGA adapter and HDMI and SPOT-OUT (RCA)
- Sensor Inputs General Purpose: 16, NO/NC - selectable
- Control Outputs: 16, Relay Output
- Serial Ports: 8 x USB 2.0, 2 x USB 3.0, 1xRS485
- Network: 2x RJ45

**ELECTRICAL**

- Input voltage: 115-230 VAC, 50-60 Hz 10/7A
- Power consumption: Up to 465 W

**MECHANICAL**

- Construction: Housing: Steel chassis Finish: Black matte paint
- Dimensions (w x h x d): 440mm x 552mm x 180mm
- Weight: Shipping: 29kg to 38kg

**ENVIRONMENTAL**

- Temperature: Operating: 5°C to 40°C Storage: -10°C to 65°C
- Relative Humidity: 0% - 90%, non-condensing

**REGULATORY**

**WARRANTY**

- Warranty and Advanced Replacements: Refer to http://www.honeywellscurity.com/hota/support/warranty/index.html

**Server based VMD (Smart VMD) performance - channels supported**

- Channels at max fps: 32 ch IP at 960 fps @ 4CIF/VGA or 32 ch IP at 960 fps @ 720p or 16 ch IP at 640 fps @ 1080p, 16 analog at 480 fps @ CIF/96 fps @ 4CIF and 16 IP at 320 fps @ 1080p.
- All Channels at fps: 32 ch IP at 960 fps @ 4CIF/VGA or 960 fps @ 720p or 320 fps @ 1080p, 16 analog at 480 fps @ CIF/96 fps @ 4CIF and 16 IP at 320 fps @ 1080p. Note: Local client - 2x2 view for 1080p and 4x4 view for all other lower resolutions.
